PRIVATIMUS®

FOR IMMEDIATE RELEASE

Privatimus' information platform and themed homepage www.pre-employment-checks.com goes online

Aim of this platform is to provide an initial insight into Pre-Employment Screening (PES). Company owners, security experts and HR managers can utilize this platform to learn about current legal and professional aspects for a legally compliant applicant review.

HAMBURG, (27. March 2018) – Privatimus, a German security consultancy specialising in strategic protection concepts and protection strategies for NGOs, family offices, asset management and their wealthy private clients as well as corporate clients, is launching a new thematic and information platform.

"The process of applicant pre-employment screening and background checks is still in its infancy in Germany, Austria and Switzerland." Sven Leidel, Partner and Head of Intelligence at Privatimus GmbH, explains. "Statistically speaking, it is estimated by the faculty and PES experts that almost half of all applicant CVs show inconsistencies or are fabricated in some way. Background checks for candidates from non-European countries is also increasing, which can pose a real challenge especially for German SME's with a limited international orientation and network," says Zeeshan Nasir, also a partner of Privatimus GmbH and Head of Operations.

Partners at Privatimus GmbH

"Procedures for applicant verification in Germany, Austria and Switzerland are very different from those in the USA, for example. Post-employment screenings are not feasible in accordance with the law, and certain checks are simply taboo due to strict data protection regulations and personal rights," adds Sven Leidel.

The new portal of Privatimus GmbH closes the information gap for non-experts as well as those responsible for Corporate Security, HR and Management who engage in pre-employment screening on an occasional or regular basis, depending on the requirements of their clients.

Answers to questions such as: What is allowed? What is not allowed? Where are the limits? How far can a pre-employment check go? How does a Best Practice look like? - and more, are provided on www.pre-employment-checks.com
